Client Testimonials

After several tries in house and when other website designers failed to produce a quality product we found Xtreme Media. Innovative design, functionality, layout and color scheme have created a website that allows our company to shine. We were so satisfied, we had their staff design our complete presentation folders and inserts using the same look as the website for a well coordinated campaign with high quality impact. The patient attention to every little detail made our experience comfortable and the end product better than we thought possible.

Ron Kletter, Exec. VP - Industrial Services of America, Inc.

Xtreme Media saved me! They saw that my business was floundering because of an outdated website and completely revamped and revitalized it. Because of that our business has increased and our customers use the site to stay connected to us.

Sandy Pike, Owner - Home Cuisine

Xtreme Media was hired to correct a problem we were having with our email provider. They were quick to provide us with the service we needed to conduct our business.

Lawren Just - Owner - Persimmon Ridge Golf Course
