

HOME HEALTH DIRECTORY

Home Health Care refers to care provided in a person's home. Medical Home Health Care is a licensed level of care that provides nursing care and personal care. (These agencies may also provide non-medical care.) Non-Medical Home Health Care in Kentucky is not licensed and in Indiana must be licensed. They cannot give medications or treatments, but can provide limited personal care, and companions who prepare light meals, tidy homes, and may offer transportation or errand services.
